Site: Spauldy Incinerator
ID #: Nepacco 7452154
Break: 1.6
Other: 2-24-81
0751

We believe the trenches were excavated or filled as follows:

<u>Trench Number</u>	<u>Opened</u>	<u>Extended</u>	<u>Partially Filled</u>	<u>Closed</u>
1	Oct.15-17, 1966	Not Applicable	Not Applicable	April 5-7, 1967
2	April 5-7, 1967	Not Applicable	Not Applicable	Nov.11 & 13, 196
3	Nov.11 & 13,1967	March 17 & 26, 1968	March 17 & 26, 1968	Nov. 21-22, 1968
4	April 15-16,1969	Aug.24-26,1970 ¹	Sept. 30 & Oct. 1, 1969 ¹	April 8, 1971
5	Aug.24-26, 1970	Not Applicable	Not Applicable	April 8, 1971

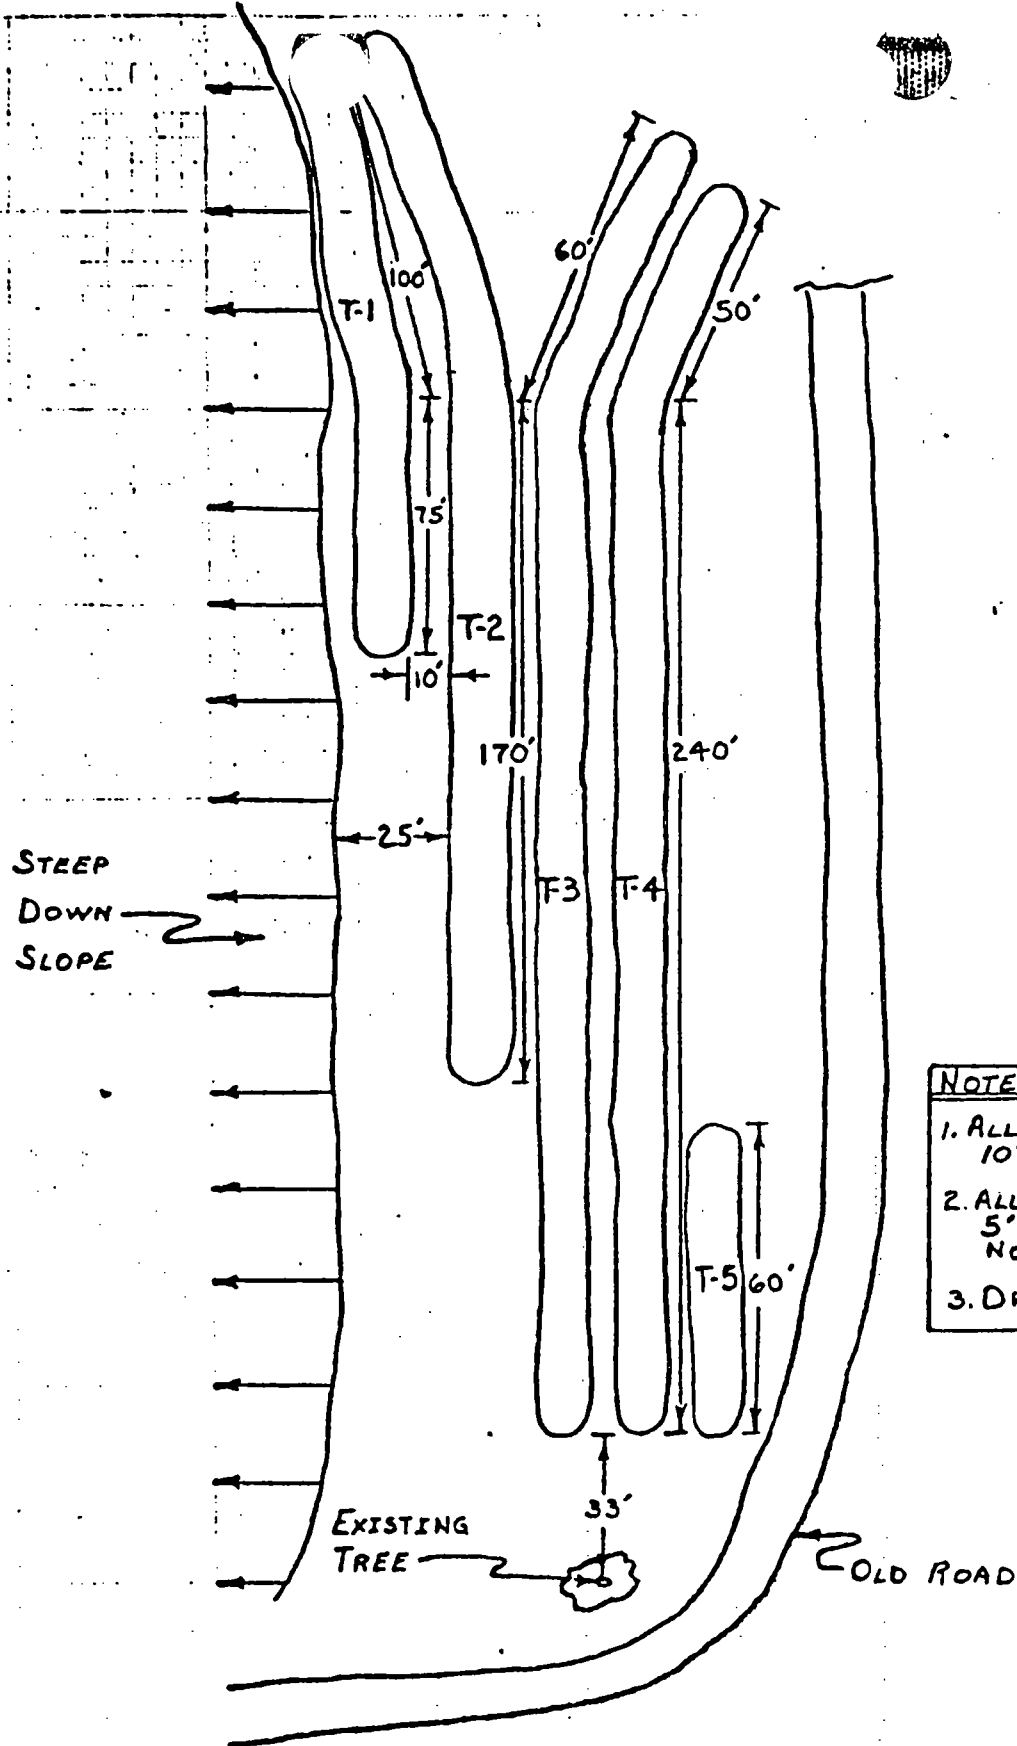

Finally, the entire area where the trenches are located was smoothed by a bulldozer on November 9, 1971.

As is evident from the above chart, the only trenches open during the time of Nepacco's operations were Trenches 4 and 5.

¹ Please note that Trench 4 was partially filled prior to being extended.
